# Inseqr

2SecureVPN

2S VPN

Who for?

2SecureVPN will be suitable for companies and public institutions, including in particular critical infrastructure entities, banks, law firms, government entities and companies with domestic and international branches, hospitals, as well as other organisations where the security of ICT systems and double-secured data transfer are of utmost importance.

What distinguishes the Inseqr solution?

VPN technologies for secure data transmission are now widely used. However, in particular cases involving critical resources, additional protection is required. Therefore, Inseqr has developed technology to additionally secure transmission via a VPN.

WE CREATE A CULTURE OF SECURITY

Double security with **2SecureVPN** by Inseqr

2SecureVPN or Inseqr's double-secure, ultra-safe VPN is a solution aimed at anyone for whom digital security is crucial to running a business.

Advantages

Use of OTP (one time password) mechanisms

Simple personalisation of authorisation media

Introduction of 2FA mechanisms preventing user impersonation

Seamless integration with the organisation's internal PKI

Smooth integration into Active Directory services

Ease of management

Unified user management point from Active Directory

Low implementation costs

What makes us different:

2SecureVPN Inseqr is a proprietary technology **additionally securing your VPNs.**

At the customer's request, we provide **certification** of the tool by institutions responsible for national security.
